

The only syringe filter

certified

for LCMS applications

Acrodisc® MS Syringe Filters

Designed specifically for liquid chromatography mass spectrometry (LCMS)

- ▶ **LCMS certified** – Minimize interference in your results. First LCMS filter certified for extremely low levels of extractables.
- ▶ **Low ion suppression/enhancement** – Reduce the need for retesting. Acrodisc MS syringe filters will not contribute extractables that interfere with the ionization process – the heart of the LCMS technique.
- ▶ **Protective packaging design** – Packaged into five separate tubes to maintain purity until ready to use.
